

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

I was relieved to learn there are no immediate plans to relocate the Tri-River office and gardens.

However, if the Fairgrounds area is sold, I would hope that one of the buildings, like the Jockey Club, could be moved behind the Tri-River office. We need a building for classes, meetings and some storage space for garden tools and supplies.

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

I was very impressed with the "Riverside Civic Arena", and I agree that we are a growing community & need an arena, that will facilitate various shows, entertainment & fun. However, I am a Master Gardener & do not want to see land being developed that will have any impact on the classrooms that the MG program currently uses (at no charge), & on the seedling tree storage & distribution area. Thank you for your time.

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

IT IS IMPERATIVE THAT 4-H, MASTER GARDENERS, AND THE FAIR HAVE ADEQUATE, INEXPENSIVE SPACE. WE DON'T NEED TO MAKE GRAND JUNCTION LIKE DENVER! IF WE WANTED TO LIVE IN DENVER, WE WOULD MOVE THERE

3/26/08

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

Meeting was well-conducted. Those of us concerned about the CSA Exp. Office + Arboretum were happy they will stay, along with the Kits Park and field.

4-H + Pets Part:

We are also concerned about where 4-H can go if no facilities are available at the fairgrounds. Can part of it stay? Will the new arena simply allow 4-H to use it w/o cost?? 4-H is vital and needs a place to use. Please consider them in your final decisions.
