

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

I am quite concerned about what I heard - how much time is being spent on this "River" Arena - two dollars are being wasted by our city/county employees!!!

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

DO YOU PLAN TO INCREASE SECURITY FOR THE 4-H PROGRAM, MASTER GARDEN^{ER} AND THEIR FACILITIES AFTER THE SALE AND DEVELOPMENT OF THE FAIR GROUNDS

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

If you are going to tear down the buildings on the east side of the fairgrounds and sell the property will there be any money to put up a building by the Tri-River Extension office for educational + meeting purpose.

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

It appears that the decision to sell part of the fairgrounds has already been made. My concern is for the County Extension office, especially the Master Gardener program. The statement was made that this area is safe for new. Currently the Ext Office utilizes at no charge the meeting/classrooms of the F.G. for many of their programs. An imp. part of the Ext programs is to educate the home owner, small acreage owner, commercial growers, and the green industry in how to have a maximum output with a minimum impact on the environment. This will help imp. if the population increases as projected, less open land, and less water. Change you in your planning to include a meeting/classroom building adjacent to the current ext. office so that these imp. programs can continue.

I would like to offer the following comments/questions from the public meeting held on March 25, 2008.

The Civic Arena sounds like a great asset to our City. I do have concerns about what the fairgrounds land will be zoned for future use. Also I concern for 4-H
