ADDENDUM ONE  
RFP-19-03143  
FRT-18.5-K.99A BRIDGE

February 8, 2019

This amendment to the Request for Proposals for the above referenced project supersedes all contrary and conflicting information which is hereby supplemented or revised in certain particulars as follows:

Additions:

Add coordination with the Colorado Department of Public Health and Environment to the list of entities for which coordination is anticipated under Section 2.6.

Add Stormwater Management Plan to the list of plan sheets in Section 2.8 under Roadway Design and Roadside Development.

In Section 2.8 under Right-of-Way and Permanent Easements add “Additionally the right of way plan should include a plan view that highlights the modifications needed in the existing or acquired right of way such as grade modifications, utility relocation or installations, tree or shrub removal, fence modifications, irrigation modifications, mailbox relocations or any other project modification that the landowner would consider pertinent to right of way negotiation.”

In Section 2.8 add the following:

Stormwater Management Plan

A construction stormwater management plan compliant with the requirements of Colorado Department of Public Health and Environment general permit COR400000 or latest version shall be prepared. Both the owner and operator must apply for permit coverage as co-permitees. The plan shall contain both interim and final storm water management measures and bid items and quantities along with maintenance items. The plan shall distinguish between contractor and owner responsibility for interim and final measures.

Add “final right of way plan” to the Deliverables required following the 60% review.

Add “Include the final Construction Stormwater Management Plan” under the Drainage Design portion of section 2.10 FINAL DESIGN (90%).
Clarifications

Properly prepared and scaled AdobePDF documents may be submitted wherever paper submittals are referenced.

All remaining requirements of the Request for Proposals remain unchanged.
